

Whitney Hoffman's 'Blind Trust' Continues

After Lisa Moore allegedly stole \$3.2M on Whitney Hoffman's watch, Hoffman explained her mistake was to 'trust' Moore. But Hoffman then just shifted her blind trust in Moore to the new Township Manager, Eden Ratliff.

When Hoffman approved the hiring of Ratliff in 2019 he was **only 28**, had just graduated from Public Management school, and had **never managed a Township like Kennett**. He had been **let go after two years** on his first municipal job, and left his next job amid **complaints about a tax scheme he championed that hurt local businesses** and which **the courts eventually reversed**. Despite this, Hoffman not only approved Ratliff's hire, but has **since backed his every decision**, insisting that Ratliff "makes sure everything is running to the highest standards."

This includes Ratliff's early decision to **summarily replace the entire Kennett Greenway team**, causing a **year delay** that nearly **lost \$2.2M in state funding**. More recently, Hoffman unequivocally backed Ratliff's **dubious scheme to rapidly dismantle our proven Emergency Services system in favor of a monopoly** controlled by Longwood Fire. This was done despite serious concerns about **Longwood's ever-increasing costs and financial sustainability**, as well as the **lack of any formal plan** to ensure the scheme will actually work.

That's not how a Supervisor should act. Two decades of public sector service supervising hundreds of staff taught me how to deal with people who are **unprofessional, unethical, or just out of their depth**. Vote for me on May 18 to **restore real trust in Township government**.

for Kennett Township Supervisor
May 18 Democratic Primary

Dear Fellow Kennett Township Democrat,

I'm challenging the incumbent, Whitney Hoffman, in the May 18 Democratic primary for Kennett Township Supervisor. I'm running **because Hoffman simply has too many liabilities to defeat the GOP in November.**

KT voters have not forgotten the **massive \$3.2M theft that former Township Manager Lisa Moore engineered, mostly on Hoffman's watch.** When confronted by angry residents in December 2019 after the full scope of Moore's alleged theft became clear, Hoffman explained that "Lisa... told me how we did things here....I **trusted her, and I take full responsibility for that.**"

But has Hoffman REALLY learned anything from this \$3.2M lesson? Flip this card to read about how **Hoffman's 'blind trust'** continues to this day.

Thanks for your support.
