

How Can Democrats Restore Trust in Kennett Township Government?

In December 2019, the county DA's office revealed a **multi-year fraud so massive it took seven months to reconstruct**. Our former Township Manager Lisa Moore was charged with 115 felonies and 26 misdemeanors allegedly **netting Moore an incredible \$3.2M!** To date, almost **no money has been recovered from Moore**, while the \$1M Township insurance policy proved the **Township was woefully under-insured**.

Embezzlement of this scale is unprecedented in Pennsylvania. **How could our Supervisors let this happen?** Many residents called for them to resign immediately, but **nobody had to face reelection ... until now**. This year, in the May 18 Democratic primary, I am challenging incumbent Whitney Hoffman. **Much of Moore's theft occurred on Hoffman's watch**. If she wins this primary, **Hoffman simply won't be able to attract the independents and crossover Republicans** we Dems need to win in November.

But I can! I have a long track record of leadership and accountability in public service, and **I have no ties to the Moore scandal**. Vote for me on May 18th, and prove to ALL the voters that **Democrats hold their own accountable** and are ready to **move on from the scandal**. That's how we **restore trust in our government**, and how we **win in November!**

May 18 Democratic Primary

Dear Fellow Kennett Township Democrat,

I am running for Kennett Township Supervisor in the May 18 Democratic primary. My opponent, incumbent Whitney Hoffman, was Supervisor when Lisa Moore, former Township Manager, was charged with **embezzling \$3.2M, most of it on Hoffman's watch**. These facts would be damning for any incumbent, but **Hoffman remains in denial**, running for a reelection **she doesn't deserve**.

Now Hoffman is trying to defend herself by saying: "**To be perfectly honest, we were complacent and trusted the former manager. Everyone in town, and frankly the whole area, did.**" Is this really Hoffman's excuse for **not doing her job??**

As a public sector executive for nearly two decades, I know that **blind trust in subordinates is an invitation to cheat the system**. Can we ever restore trust in KT government if we do not **hold Hoffman accountable**? Flip this card to read more.

Thanks for your support,

Peter Doehring
